

# FUN DAY

## November 18

### MONTGOMERY MIDDLE 9:00 - 3:00

#### 1900 EDGEWOOD AVE COQUITLAM

#### Pinball Mechanics

Pinball machines mix engineering and art! Learn the fundamentals and create your own model.

#### Catapult Crazy

Hands-on creation of a mechanical standard - how does it work and how far can it throw?

#### Balsa Build

How can tiny little pieces of wood hold up hundreds of pounds? Find out and try yourself!

#### Creating Theatre Magic!

Learn the foundational secrets of creating performances and theatre that is more magical!

#### Movie Magic

Use professional stage make-up to create broken noses and black eyes.

#### Electrifying Energy

We will spark your interest to generate positive ideas about electricity! Build a simple model of an electric game.

Come **take** a look at these and our other sessions on our registration page!

## SUPERHERO QUEST

Come build, create and invent in an **Odyssey of the Mind** challenge! Students will use **recycled materials** and their own **imagination** to create props, simple machines and a skit - developing their **presentation, creative thinking** and **technical skills!**

### To Register Students

#### Grades 3 - 12:

**EVENTS @**  
**odysseybc.ca**

**odyssey**  
of the mind **BC**  
generating future problem solvers
